

Senior Software Engineer (m/w/d)

Therapy Lift is a Berlin startup re-shaping Mental Healthcare. We are creating solutions to change the way professional treatment is delivered to patients and improve its outcomes.

Be part of our success story right from the start:

We are already supporting selected clinics and practices in digitizing their care delivery to patients. The best is yet to come.

What we're building:

In a nutshell, we're building an on-demand online-therapy platform that empowers psychotherapists with a novel approach to deliver care to their patients easier, faster, and more efficient from the comfort of home.

Patients benefit from decreased waiting periods to start their treatment without the hassle of searching for a mental health professional.

Your tasks:

- Become part of our small, but ambitious team and be an integral part of delivering crucial features to therapists and patients from day one
- Work closely together with our CTO in building world class infrastructure (yes, that's what we're going for)
- Develop and deploy awesome code together with solid documentation (we encourage you to do it your way)
- Co-shape and implement test automation within our CI/CD pipeline

Your profile:

- We value skill and talent paired with deep seated curiosity instead of academic degrees
- Relevant track record as an exceptional full-stack or frontend engineer with a love for Flutter and optionally previous experience or interest in Back-End Development with Go
- Self-starter with a creative mind for solving user problems creatively and cleanly
- Strong team-player with strong communication skills
- Entrepreneurial and ambitious mentality

Why us?

- Join early stage, shape technical decisions and work with an exceptional founding team
- Enjoy and exceptional, cutting-edge tech stack that is hard to find anywhere else
- Team that takes great responsibility in ensuring patient safety but doesn't take itself too seriously
- We believe in fair compensation and people staying long with us
- Take a major stake in important technical decisions right from the start
- Flexible work arrangements (i.e. 100% flexible home office)

How to send in your application?

Just send in your application including your salary range at contact@therapy-lift.de. Our team will get back to you in no time.

We foster diversity and inclusion from day one. We encourage everyone to send an application, even if you have doubts if you fulfill all the requirements – give us a chance to evaluate your experience and let's uncover the value that you can bring to Therapy Lift together.
